Career Goal

To use the writing, graphics and photographic skills I've acquired through years of experience and training to provide both immediate and long term profit for a growing company; to increase sales by developing and producing a wide range of print media and/or web sites in support of all departments; to create an image bank of photographs which will enhance a company's advertising and publicity releases for years to come.

Experience

February 1995
to present

Public Relations, Graphic Designer and Photographer **brucephilpott.com**

Crafting publicity releases, designing and producing print graphics and web sites on both Macintosh and Windows using Photoshop, Illustrator, InDesign, Dreamweaver, and HTML. Clients include Delta Machinery, Empire Manufacturing, Paperbacks Unlimited, Whitehall Lane Winery & Vineyards, and Wine Shipping. In addition, my former employers, the wineries of the Terlato Wine Group and C.B. Tool Group, are among the clients I've since served on a freelance basis.

March 2004
to June 2010

Graphic Designer and Photographer **The Terlato Wine Group:**

Rutherford Hill Winery, Chimney Rock Winery, Alderbrook Winery, Sanford Winery

Created a broad variety of print media and web pages supporting direct wine sales and Terlato wine clubs using InDesign, Photoshop, Illustrator, Dreamweaver, Flash, and HTML.

Improving efficiency of data input into graphics projects using Excel; monitoring project and equipment usage costs; creating templates and styles to streamline repeated projects and achieve product images of consistent, high quality.

Producing eye-catching, quality digital photographs of products, people and places for advertising and publicity. These photographs are not only proving to be invaluable in our current graphics projects, they are forming an image bank which will continue to enhance the company's image for years.

In general: Efficiently and artistically combining succinct text with my original photographs and art to yield attractive print and web "collages" which sell the company's products.

February 1995
to March 2004

Customer Service / Graphic Designer **The CB Tool Group:**

San Jose, Sacramento, Monterey and Santa Rosa, California

Served the varied needs of professional and advanced amateur woodworkers. Responsible for creating and maintaining the website (cbtoolgroup.com), business forms, signage, catalog work and point of purchase graphics for a chain of four retail stores using Dreamweaver, Flash, HTML, QuarkXPress, PageMaker, Photoshop, ImageReady and Illustrator.

September 1990
to February 1995

Journeyman Printer **The Press Democrat, Santa Rosa, California**

Produced quality color ads in high production for a daily newspaper in a Macintosh environment. Responsible for production of special sections and the bimonthly HomeFinder Magazine. Other skills included cutting detailed color separations, proofreading and paste-up.

March 1973
to February 1990

Journeyman Printer
Petaluma Argus-Courier, Petaluma, California

Produced quality color ads in high production for a (then) daily newspaper on a Compugraphic AdVantage. Spec'd type, pasted up, cut detailed color separations. Wrote software for reporters' laptops.

Photography Instructor

Petaluma, Rohnert Park, Novato and Napa Recreation Departments

Taught Creative 35mm Photography enabling over a thousand adults to achieve the photographs they'd always wanted.
